EXECUTIVE SUMMARY

Marketing-minded full stack developer who uses AI tools to build and measure growth funnels. Shipped an enrollment platform (Sep 2026) with SEO, GA4, GTM, Meta Pixel tracking, and automated email flows; now building an ERP with CRM for a logistics company.

EXPERIENCE

FULL STACK DEVELOPER INTERN
Baptist Digitek Pvt. Ltd. // Chennai, India // Oct 2025 – Nov 2025

- Rebuilt the corporate website of parent company Baptist Healthcare as a full stack developer, modernizing its design, structure, and codebase.
- Developed responsive pages and reusable UI components, and deployed the updated website to production.

PROJECTS

DUBASH EXIM ACADEMY – LEARNING & E-COMMERCE PLATFORM
Freelance // Shipped Sep 2026 // Next.js, Razorpay, GA4, GTM, Meta Pixel

- Built the enrollment funnel for an export-import academy: course catalog, cart and checkout, Razorpay payments, and a student dashboard.
- Set up SEO with prerendering, plus GA4, GTM, and Meta Pixel conversion tracking to measure the enrollment funnel.
- Automated email flows for orders, payments, and cart reminders, plus OTP-based password reset.
- Built an admin panel to publish courses, blogs, and ads without developer help.
- Developed an LMS with video streaming, assessments, and certificates; deployed to production on Hostinger.

MONOLITH ENGINE – ERP
Freelance // In progress // Next.js, Neon, Prisma

- Building a modular ERP for a shipping and logistics company, covering CRM, HRMS, attendance, appraisal management, and customs clearance.
- Owning the full lifecycle: client requirements, Neon database design with type-safe Prisma models, and development.

TECHNICAL SKILLS
